Pet Permission Form

I would like permission to keep an animal at my home and if granted I agree to accept the conditions set out below:

a. The pet does not cause nuisance or annoyance to neighbours and other residents for example, barking or fouling the garden or any common areas near the property.
b. Any dogs are kept on a lead and under control at all times, especially in the surrounding areas of your home.
c. Permission is granted for the keeping of one animal only and the breeding or keeping of other animals at the property is not permitted, without express permission from RHS.
d. The animal will not be left unattended in the property or garden for long periods of time.
e. When the animal passes away, new permission is needed if you want to replace it.
f. Dogs and cats will be microchipped. All dogs in England have to be microchipped by law and their details registered on an approved database such as Petlog.

I apply for permission to keep an animal and agree to abide by the above conditions. As the registered keeper, I accept I am responsible for the animal welfare and will care for their needs. I understand if the conditions are broken, permission may be withdrawn, and the animal will have to be removed from the property.
